Washington, DC 20204

Dear Sir/Madam:

This is a notification pursuant to 21 U.S.C. 343(r)(6) that Standard Process Inc., Palmyra, Wisconsin 53156-0904, is making the following statements:

- (1) Garlic can help maintain a healthy heart and circulatory system and also has tremendous value as an anti-oxidant that can protect the body against free radicals.*
- (2) Garlic can help maintain a healthy heart. In conjunction with a healthy diet and exercise, it can help maintain normal cholesterol and triglyceride levels. Garlic is also beneficial in maintaining a healthy flow of blood through the circulatory system.*
- (3) Garlic can help protect against free radicals. Garlic is also a powerful protector against damage from "free radicals" -- the highly unstable oxygen molecules that damage body tissues and may be responsible for many effects of aging. *

These statements are made for a dietary supplement containing vacuum dried garlic (organically grown), vacuum dried parsley (organically grown), and calcium stearate. The name of the product is Garlic Capsules™.

The information contained herein is accurate and Standard Process Inc. has substantiation that the statements are truthful and not misleading.

Sincerely yours,

Ann Holden
Standard Process Inc.
